South Africa's family-run travel & aviation ground partner

Compass Travel is a family business, started in 2006 by brothers Ismail and Rushdi Isaacs. We began with one van and a simple promise: look after people and be on time. Airlines and tour operators started calling because they needed a partner who would track flights, answer at 2am, and never let a crew or guest down. Today we serve everyone from solo travellers to international airlines — but we still run it like a family business.

Why airlines, operators and corporates choose us:

- ▶ **Airline & crew specialists.** Cabin-crew transfers, deadhead positioning, flight-crew transport, meet & greet and layover tours — with flight monitoring and 24/7 dispatch.
- ▶ **Aviation-grade reliability.** Nearly two decades of punctual crew transfers and VIP airline services.
- ▶ **Your DMC in four hubs.** White-label ground handling for inbound operators: FITs, groups, seat-in-coach, guiding and 24-hour ops.
- ▶ **Corporate-grade service.** VIP transfers, staff shuttles, MICE logistics and executive transport, with invoicing and reporting.
- ▶ **Fully insured & tracked.** Every vehicle carries seatbelts, a fire extinguisher, satellite tracking and R100 million passenger liability.

Airport & point-to-point transfers
